

Student quotes about EYE

Yellow hat: What were some positive things about the program?

"It was exciting, inspiring, challenging and especially great for learning."

Y3 student

"It teaches people that there is no limit to learning."

Y3 student

"I love it when your brains go further on and we learn much much better."

Y3 student

"I learned more things and it is fun. It also makes me want to think more."

Y2 student

"I like it because I think hard and after the session I am tired."

Y2 student

"I liked the way that we get educated with hardness."

Y3 student

Blue hat: How has participating in this program helped you to think?

"This program has almost changed my way of thinking completely."

Y3 Student

"I use the habits of mind. I ask questions in my head any day, any place, any time."

Y3 Student

"This program has helped my brain to ask more questions about everything we did in EYE. I feel really confident to share my ideas now because EYE helped me so much to smash my goals."

Y3 Student

"It has helped me to think in other ways."

Y3 Student

"It gave me a lot of questions to answer. It made me use the Habits of Mind. It made me use the 6 thinking hats. I imagined a lot of things."

Y3 Student

"It helped me think very wide. I learnt how to look in different ways like throwing challenges at yourself."

Y3 Student

"It helped me think about not closing down my brain."

Y3 Student

Blue hat: How has participating in this program helped you to think?

“Participating has made me think way more. There are lots of new things that have helped. It has helped me think by expanding my knowledge. By knowing that I can always do more, my thinking is always thinking about itself. After this program my head is bursting with ideas.”

Y3 Student

“It has become a big part of my mind. It has unlocked many doors inside my mind and unloaded buckets and buckets of ideas...It has become part of my life.”

Y3 Student

“It made me think outside what I would usually think. It also made me very curious and I learnt some new words and some weren’t even in the dictionary!”

Y3 Student

“Well, now I ask more questions, meaning I now know more e.g. before I never asked my dad whats, whys and whos. Now I am much more curious. Now I can think much more clearer than I did before.”

Y3 Student

“It made me think in ways I would never dream of thinking in and after every lesson I’d go home wondering and asking myself many questions. I’ve been thinking outside my comfort zone and extending my thinking.”

Y3 Student

“It made me think more and makes me ask more questions.”

Y2 Student

“It makes me wonder about things.”

Y2 Student

“Thinking in different ways to clear my brain. I think about more questions.”

Y2 Student

“This program helped me think better, have more answers and much more questions.”

Y2 Student

White hat: What have you learnt?

"I learnt that if you keep thinking you can hit gold."

Y3 Student

"We learnt about OPV to discover how people are feeling and why they are doing things, then when we know why they do that we get more questions."

Y3 Student

"OPV made me think more about what other people are thinking about. Luke's Way of Looking made me look at things differently."

Y3 Student

"Be open to ideas. Expand your ideas to make bigger ideas and expand on ideas made by others."

Y3 Student

"I learnt that you can see things in more than one way. You don't have to find one way to answer a question, you can find more than one answer. Other people have other ideas that are not like yours at all. This does not make their ideas worse than yours."

Y3 Student
